

THE SHIFT

PROGRAMME 2019

Visit us on www.theshift.be

During the second half of 2019, we will organise a couple of inspiring networking events, keep our impact networks energised and help initiate impactful partnerships on several themes. Curious about what you can expect from us for the next few months? Find out here!

What's more, through our Generation T network, The Shift wants to facilitate the connection between organisations dealing with sustainability challenges and a group of young passionate experts who are professionally active within the theme in question. Get inspired by the young leaders of tomorrow and contact us if you wish for us to organise a tailored CEO Challenge.

CLIMATE & ENERGY

20.06 Impact Network Mobility 2	25.06 Workshop Science Based Targets	19.09 Impact Network Internal Carbon Pricing	03.10 Inspiration Day GD City Logistics	08.10 Shared Mobility Rocks 2019
----------------------------------------------	---------------------------------------------------	--------------------------------------------------------------	------------------------------------------------------	-----------------------------------------------

- Green Deals are at the heart of what we do. We will continue to follow-up on the **Green Deal Sustainable City Logistics**, which brings together actors for efficient and emission free deliveries in cities.
- We will continue to organise other meetings related to our Impact Networks on mobility, our target audience being our members who actively work on reducing the use of cars and want to optimise **employee mobility**.
- This year, we successfully kicked off new Impact Networks on **climate friendly investments and carbon pricing**. Sequels will soon be organised.
- **Science Based Targets** allow organisations to align their individual climate goals with the Paris Agreement along targets based on scientific evidence. We will continue to help you exchange your experiences with our members, discuss challenges and solutions, and pick up on new trends.
- The campaign **Sign for my Future** is now finished; we will make sure that the energy gathered during this campaign will not be lost!

FOOD & BIODIVERSITY

The **Green Deals Biodiversity** and **Sustainable Canteens** continue their course. As always, we will make sure to keep you up to date.

WORK & INCLUSION & INEQUALITY

We are planning a sequel of the Impact Network on **diversity** launched earlier this year. The topic 'Future of jobs' will also be addressed.

CIRCULAR ECONOMY & RESOURCES

18.11 Launch GD Circular Procurement in Wallonia	14.10 Meeting Packaging	21.11 Closing session GD Circular Procurement in Flanders	03.12 Meeting CSR Boosters
---------------------------------------------------------------	-----------------------------------	---------------------------------------------------------------------------	--------------------------------------

In November 2019, the **Green Deal Circular Procurement** in Flanders will come to its end, but that does not mean an end to our involvement with circular procurement. Later this year, we will launch a similar Green Deal in Wallonia. Stay tuned! We will also continue to monitor the Green Deal Circular Construction and we will soon organise a workshop on packaging.

SDGs

18.06 Impact Network Implementation of the SDGs	11.10 The Shift Breakfast	24.09 SDG Forum	15.10 ABC of the SDGs (NL)
-----------------------------------------------------------------	-------------------------------------	---------------------------	--------------------------------------

- Do you want more information on how to integrate the **SDGs** in your **corporate strategy**? Don't miss out on this year's second **workshop** on the 'ABC of the SDGs'.
- We will organise additional gatherings for our members wanting to go further in incorporating the SDGs in their strategy.
- Soon to come: a round table between **Queen Mathilde & business schools** on how to educate the future managers of our country on the SDGs; aiming to bring about a breakthrough in the business models in the near future.
- After the highly successful maiden edition of the **SDG Forum**, you can expect an even more ambitious second edition in 2019.
- What else do we have in store for you? Several breakfasts to introduce you and your colleagues to the **global SDG agenda**.

REDEFINING VALUE

22.10 Workshop B Corp	14.11 Workshop Risk Management
---------------------------------	------------------------------------------

- **Redefining value** is a complex but key step to help organisations focus on the **positive values** they can bring to society; we will organise a workshop to elucidate the new business models and the methods to make them concrete.
- Earlier this year we proudly launched a new partnership with **B Corp**. We will soon offer you a workshop on what B Corp certification is all about, how it can positively affect your business and how to go about it.
- Jointly organised with the **WBCSD**, we invite you to a workshop that explains how to apply enterprise risk management in relation to environment, social and governance related issues.

SUPPLY CHAIN

After the successful launch of 'Beyond Chocolate' in 2018, The Shift is committed to exploring the power of **multi-stakeholder approaches** to make supply chains more sustainable and future-proof. Contact us if you see opportunities in garment, coffee, palm oil or any other commodity.

More information about our activities on our website.

Priorities for Change: With our members and partners, we want to make the transition towards a more sustainable society and economy. Building on strategic priorities we defined in 2018, we offer you a better view on the challenges ahead, the choices to make and levers to use.

Impact Network: Our Impact Networks are learning environments aiming for the biggest possible impact for a sustainable future. Impact Networks allow you to exchange your best practices and share the obstacles you have encountered, while organisations find inspiration in a safe environment. They cover a wide range of topics such as diversity, mobility and science based targets.

Green Deals (GD): When (private) partners, civil society and (national or regional) governments team up in a voluntary agreement around a sustainability issue, it is called a Green Deal. Green Deals aim to unite a wide range of actors to tackle complex problems in society through innovative solutions set up by the participating organisations.

CEO Challenge: Members of Generation T are young high potentials coming up with refreshing ideas, challenging the status quo and helping you find innovative solutions for your sustainability challenges.
